The objective of LTI 2018 is to link an increasing share of key employees', of Dustin Group, compensation to Dustin Group's and the Dustin share's long-term value growth, and thereby aligning the interests of the employees with those of the shareholders. LTI 2018 will be an important program for Dustin in order to be able to motivate and retain the best talents; this is vital in order for Dustin to achieve long-term value-growth for the shareholders. LTI 2018 has the same structure as the incentive program which was adopted at the annual general meeting 2015/16.

The board proposes that the general meeting resolves on an issue of no more than 1,017,956 warrants, each warrant shall entitle the holder to subscribe for one (1) share, in one series, and issuance of 142,040 cash settled synthetic options, issued within an incentive program for Dustin's group management and key employees. LTI 2018 includes no more than 35 individuals. The Company's board members shall not be included in LTI 2018.

The Company's wholly-owned subsidiary, Dustin AB, with deviation from the shareholders preferential right, shall be entitled to subscribe for the warrants. Subscription shall take place on a specific subscription list at the latest on 15 January 2018. The board have the right to extend the subscription period. The warrants shall be issued free of charge. Dustin AB shall transfer the warrants to the participants in LTI 2018. Such transfer shall be made at a price corresponding to the market value of the warrant (the premium). In total, the participants in LTI 2018 are entitled to acquire the total number of warrants that upon exercise for subscription of new shares corresponds to appr. 1.32 per cent of the Company's share capital and votes following dilution. There can be no over-subscription.

Each warrant shall, during the period commencing on 31 January 2021 and up to and including 30 June 2021, entitle the holder to subscribe for one new share in Dustin Group AB (publ) at a subscription price of SEK 88.90 (which corresponds to 120 per cent of the average for each trading day calculated average volume-weighted price paid for the Dustin share on Nasdaq Stockholm during the period ten trading days after the publication of the year-end report 2016/17, 19 October – 1 November 2017, rounded off to the nearest full SEK ten (10) öre, whereby SEK five (5) öre shall be rounded down). The warrants shall otherwise be subject to the conditions which are available on the Company's website, <http://www.dustingroup.com/en/agm1617>.

Transfer of the warrants to the participants

The following terms and conditions shall apply for the transfer of the warrants to the participants in LTI 2018.

Dustin AB shall offer the warrants to participating group management and key employees within the Dustin Group. The transfer of the warrants shall be made at a price corresponding to the market value of the warrants at the time of transfer (the premium), calculated according to a by the market generally accepted valuation model (Black Scholes). The calculation shall be performed by an independent valuation institute. In connection with the transfer of the warrants to the participants, the Company shall reserve a right to buy-back the warrants, if the participant's ceases to be employed or performing services to the group or if the participant should transfer its warrants (pre-emptive right).

- the CEO of Dustin can acquire not more than 189,387 warrants at market value, and
- the other participants can, together, acquire not more than 828,569 warrants at market value, the maximum number of warrants that each participant can acquire will be based on the participant's competence and area of responsibility.

Synthetic options

The board proposes that Norwegian employees may be offered to participate in LTI 2018 without making an investment in warrants, and instead be offered a cash settlement by investing in so-called synthetic options that retains the economic characteristics of the warrants. In order to implement the synthetic option program, the board proposes that the annual general meeting resolves on the following principal terms and conditions.

A synthetic option gives the holder the right to receive a cash amount, from Dustin, corresponding to the difference between the subscription price as set out above, i.e. SEK 88.90 and the average for each trading day calculated average volume-weighted price paid for the Dustin share on Nasdaq Stockholm during the period ten trading days before the day the synthetic option is exercised.

The participants' acquisition of the synthetic options shall be made at market value. The value (the premium) shall be calculated according to the same principles as the warrants and each participant shall be entitled to acquire the same number of synthetic options as the number of warrants that the participant would otherwise have been entitled to acquire. The synthetic options are to be exercised during the period from 31 January 2021 up to and including 30 June 2021.

The board shall resolve on the content of the option agreements to be entered into with the participants who would like to purchase synthetic options. The Company will reserve the right to (i) buy-back the synthetic options if the participant should transfer the synthetic options (pre-emptive right) and (ii) cap the amount per synthetic option, that each participant can receive to SEK 204.65.

Impact on key ratios

The Company's earnings per share is not affected by the issue of warrants or synthetic options since the present value of the subscription price exceeds the current market price at the time of the transfer or issuance.

Costs

The transfer of warrants and synthetic options shall be at a price equivalent to the market value at the time of transfer or the date of issuance, which means that there are no social security contributions for the group in connection with the issue and transfer of the warrants or the issuance of the synthetic options. According to a preliminary valuation, based on the market value of the Company's share on 1 November 2017, the market value of the warrants and the synthetic options are SEK 3.85 per option. The Black Scholes-model has been used for the valuation, assuming a strike price of SEK 88.90 per share, a risk-free rate of -0.47 per cent and a volatility of 23 per cent.

Other expenses for the incentive program relates to fees to external advisors and administrative costs for LTI 2018.

The dilution of existing shares and votes

Based on the number of shares and votes in the Company, the proposed LTI 2018 implies, upon exercise of all 1,017,956 warrants, a full dilution corresponding to approximately 1.32 per cent of the total number of shares and votes outstanding in the Company. If all outstanding incentive programs of the Company are included in the calculation, the corresponding maximum dilution is approximately 4.78 per cent.

Preparation of the proposal

LTI 2018 has, in accordance with guidelines from the board, been prepared by the Company's management and external advisors as well as been considered by the remuneration committee and at board meetings in November 2017.
